MANAGEMENT DEVELOPMENT
PROGRAMME
IN HOSPITAL ADMINISTRATION
(MDP – HA- 2022-23)**

*We look for the best, nothing but the best in
Management of Hospital and Health Services*

ORGANISED JOINTLY BY

HNBUMU- DEHRADUN

&

AHA INDIA

ORGANIZATIONAL BACKGROUND

HN BAHUGUNA UTTARAKHAND MEDICAL EDUCATION UNIVERSITY, DEHRADUN, UTTARAKHAND

The establishment of the Hemwati Nandan Bahuguna Uttarakhand Medical Education University fulfils one of very long cherished and important aspirations of the people of Uttarakhand to have best and highest level medical facility within the state. Although successive state governments tried to provide a chain of hospitals in the entire length and breadth of the state and also opened several medical, dental, nursing and para-medical colleges, both in the public and private sectors, for providing education in respective fields so that necessary trained personnel is available within the state for hospitals in Uttarakhand, still for various serious and critical cases the patients and their attendants had to run to Delhi and other distant places to get specialized and high level treatment. This caused insurmountable problems and incurring of huge funds in terms of money for them. This was because highest level medical education and research was not available within the state. Moreover, the medical, nursing and para-medical institutions were so far affiliated to non-medical universities in the state which only conducted their examinations and awarded degrees and diplomas and had no expertise to guide the quality of education and research. The establishment of the Hemwati Nandan Bahuguna Medical Uttarakhand Education University at Dehradun, by an Act enacted by the Uttarakhand Legislative Assembly and assented to by the Governor on 18 February 2014 by the Uttarakhand

ACADEMY OF HOSPITAL ADMINISTRATION (AHA) INDIA

AHA is an autonomous professional organization consisting of highly qualified and experienced Experts and faculty in hospital & health systems operations management, public health and multispecialty facilities planning & architectural designing doyens, Quality management in health care delivery systems (NABH, NQAS & NABL) experts, public health strategists etc. AHA has a large panel of academia, experts in Bio-Medical Engineers, Health IT professionals, HTA, Telemedicine, Medical & Wellness tourism, Bio-Medical Waste Management, Lean & Six Sigma, and other allied fields in health related domains.

AHA was established in 1987 under Societies Registration Act, 1860 at AIIMS, New Delhi and later moved to its own campus to AHA House, Sector 62, NOIDA (UP).

In 1984, at Department of Hospital Administration, All India Institute of Medical Sciences, New Delhi, a group of highly dedicated visionaries, health systems academia decided to form an organization, which could carry out health system management development, training, conduct post graduate courses, professional consultancy, research and for exchange of knowledge conduct national & international conferences, be think tank, act as an association of hospital, health systems and allied disciplines professionals. Also be a resource and advisory body to Ministry of Health & Family Welfare Central and State Governments on all matters pertaining to Hospital & Health Systems planning, policy making and operational management. *This led to birth of first and the only 'Academy of Hospital Administration' in India in 1987.*

- **Medical Audit**,
- **Telemedicine**,
- **Medical Tourism**,
- **Continuing Medical Education in Health Systems**,
- AHA provides expert assistance in preparation of Vision Document, Concept Note, Inception Report, Strategic planning and papers preparation.

MANAGEMENT DEVELOPMENT PROGRAMME IN HOSPITAL ADMINISTRATION

WHY THIS PROGRAMME?

Health care delivery system in India has been passing through a revolutionary change in the diagnostic and therapeutic technology leading to rise in cost of care on one hand and a phenomenal rise in the expectations of the community on the other. As a result there is enormous increase in complexity in the delivery of health care services, demanding efficient quality management of facilities within the available resource at optimum cost, to achieve the productivity target of an organization, and also to maintain customer satisfaction. In India, there is a need of large number of qualified administrators say, about 18000 at junior level and 10000 at mid-level in approximately for 16000 hospitals. The proposed Advanced Management Development Programme (MDP) will be able to provide orientation to a large number till such time they acquire formal degree/diploma qualifications.

Further this program shall act as an update to those already qualified and working in the capacity of RMO/CDMO/Medical Supdt./Dy. Medical Supdt/COO etc. in the health care organizations and hospitals.

KEY FACULTY

DR ASHISH K GUPTA
MBBS, MS (Surgery), PGDHHM, MBA
(HCA) – FMS (Double Gold Medalist),
PGCin QM&AHO, NABH-Assessor,
NQAS- National Assessor, NABL
Internal Auditor & Consultant,
KayaKalp National Assessor, LaQshya
National Assessor

Dr. Ashish K Gupta is a practicing senior surgeon in Delhi since 1989. He is an expert in Organizational Development & Change Management.

Dr. Ashish K Gupta is at present the Director Programmes (Academics & Research) at AHA. This role requires to sense the evolving needs of healthcare industry & to plan and design training programmes that are best fit to meet such needs. Covid-19 pandemic has thrown challenges of unprecedented nature and provisioning of training and consultancy during such times need new thinking and innovation. He is of the view that the learning must continue. Towards this he is involved in redesigning the existing AHA programmes and developing new ones that are market driven and suitable for the current & evolving healthcare scenario. He is also involved in standardizing the teaching material of various AHA programmes and in institutionalizing the trainings.

Participants Testimonials – BATCH –I: 2022

	<p>Dr. Vikas Ghildiyal Thank you all for an excellent training program. Thanks a lot to team AHA for organizing this highly informative and practically useful training. Special thanks to NHM Uttarakhand for this timely opportunity</p>
	<p>Dr. Deepa Deopa Thank you so much all the team of AHA for such a wonderful MDP Programme. Excellent Faculty with great learning experience during the programme.</p>
	<p>Dr. Anurag Agrawal Thanks a lot all the esteemed faculty for their excellent teaching. Many thanks to team AHA for this wonderful program. Thanks and regards.</p> <p>This course must be included in MBBS and MD/MS courses. And must be made mandatory for all in such jobs.</p>
	<p>Dr. Deepa Hatwal Thank you VC sir for each and everything to arrange this training. Thank you to Whole team of AHA for such wonderful conduction of this training. Thanks to all faculty for providing us such fruitful and informative lecture to increase and update our knowledge</p> <p>Very informative, concise and excellent presentation by the entire faculty. Interaction with participants in between the lecture and during the lecture was very good. Thanks to the whole team of AHA for arranging the training in Covid period.</p>
	<p>Dr. Priyanka Chourasiya Thanks to AHA team. Looking forward for more such programs also offline and also related to hands on training in our subjects too</p>
	<p>Dr. Arjun Rawat I am very thankful to all faculty members who delivered their classes with all their heart and soul into it. This training was very informative and I'm thankful that I have been the part of this session and hope that I will get more opportunities like this in future as well.</p>
	<p>Dr. Rakhi Gusain Attending this training session conducted by the esteemed institution like AHA has been a great opportunity to me, all the faculties were highly experienced and from esteemed institutes. Being a government medical officer, we are more often assigned the duty of an administrator regardless of our qualifications, and most of the time we do not receive any formal training for the same, so this training session although being a short one has been extremely informative and helpful for me. The training has covered almost all the topics related to the administration of a health care facility. My suggestion would be that these types of trainings must be often conducted specially for the government doctors and should be made must for the doctors joining the government sector. Getting a certification for this training is like getting a trophy for me.</p>
