MESSAGE FROM PATRON'S DESK

Maj Gen (Dr.) S K Biswas, AVSM, VSM (Veteran)

Academy of Hospital Administration was founded in 1987. The Academy has the distinction of imparting training to medical officers at all levels i.e. Hospital, Health & Nursing Administrators, Medical Superintendents and Dental Officers.

AHA has travelled through many ups and downs along its journey over the last 35 years. I am sure the Academy would continue to pursue its objectives by regularly organizing training, hospital consultancy optimizing quality of care, and medico-administrative research activities, to attain a leading role in sustaining the ever expanding Healthcare Industry.

The publication of “**Coffee Table Book**” by AHA will go a long way to reflect the revolutionary path taken by the talents and visionaries in health and hospital administration for their extraordinary contribution to the field of Hospital Administration across the country.

I, congratulate the entire Board of Executives and the Team AHA who have relentlessly endeavored to forge excellence in the activities and Mission of AHA.

MESSAGE FROM PATRON'S DESK

Maj Gen (Dr.) M Srivastava, VSM (Veteran)**

Founded in 1987, the 'Academy of Hospital Administration' has a glorious past due to its' rich contributions and exceptionally outstanding achievements in the field of education, training through organizational centric customized courses and much sought after free-flowing professional consultancy in the field of modern Hospital & Health System management in both public and private sector.

The Institution has trained more than 8,500 health administrators, health care industry professionals, aspiring students and Nursing cadre administrators from Central, State Governments, PSUs and corporate sector, by conduct of organizational centric customized courses. It is heartening to learn that many alumni of AHA are occupying prestigious posts of MD, Directors, HODs (Hospital Administration) VP, CEO, VP, MS, Dy.MS and Quality Consultants, in public and private sectors. Few have started even their own Consulting Companies.

Now, the time has come to admire our Golden Academic Products (Alumni) as inspiration and role model to others in the country formulation. AHA recently organized an 'Award Function' to recognize the unparallel contributions by many stalwarts in varied fields of health management in the country.

I am sanguine that the publication of '**Coffee Table Book**' by AHA is a sincere and befitting effort in that direction to recognize and showcase the talents and their exceptionally outstanding contribution in the field of 'Hospital Administration' in the country.

MESSAGE FROM PRESIDENT AHA INDIA DESK

Dr. Yashpal Sharma

I am happy to learn that the Academy of Hospital Administration (AHA) India is coming out with a Coffee Table Book, highlighting the achievements of its Life Members, who were selected by the Committee for different categories of Awards and awarded on 13th August, 2022.

The Award function was organized in AHA House, where the awards and citations were presented to the selected Hospital Administrators. This function was the first of its kind, where only the Hospital Administrators across the country were selected for their great contributions to the Institutions and the Society.

This Award function was very well appreciated by all the Members of the AHA and I hope that AHA would continue to organize such functions every year to encourage the Hospital Administrators.

I congratulate the Organizing Committee for taking this laudable initiative and wish all those associated with this publication a highest success in their appreciable endeavour.

AHA INDIA

MESSAGE FROM EXECUTIVE DIRECTOR'S DESK

Dr. Shyama Nagarajan

The Academy of Hospital Administration (AHA), is one the earliest technical body of Healthcare Administrators in the country. Conceived by the stalwarts of Hospital Administration from the Premier Institutes & Organizations of the country, such as the All India Institute of Medical Sciences and the Armed Forces Medical College / Services; the Academy boasts of a glorious past. It has laid the foundation for the training and capacity-building of professionals practicing Hospital and Health Management across various cadres; supported the development of National Accreditation standards for hospitals; and has given the country some of the finest Administrators and CEOs in the Health sector.

These 35 years of an extraordinary journey filled with several ups and downs, the AHA has retains the essence of its existence untarnished. The impeccable integrity, ethos, and leadership have facilitated AHA to stay relevant, resilient, and adaptable to newer avenues of information in Health System strengthening and building Hospital and Health Management as a specialty to reckon with.

While we have had our fair share of challenges in steering the discipline to the mainframe, we have never compromised the mission and vision of our Founding Members. Also, as administrators we have always nominated and recognized the good work of our colleagues and staff in the system; however, there have been rare occasions where the contributions of administrators (who make things happen in the background) were recognized.

Therefore, for the first time at a national level, AHA has carved Awards to honor leaders, teachers, and administrators in the fraternity. These Awards named after great men and women from the pages of history serve as a tribute to the great Indians.

This Coffee Table Book is a compendium, a memoir to disseminate the early founders and members who anchored the growth of the discipline. I personally believe that the spirit of the Award and its manifestation in the form of a Coffee Table Book will serve as an inspiration for generations at the Academy.
